CENTRAL AMERICAN COUNTERSTAMPS OVER MINOR COINAGE

COSTA RICA From 1842 to 1923, Costa Rica authorized the usage of six different counterstamps or countermarks in order to facilitate commerce through the re-direction of circulating coinage.

I) -State of Costa under President Carillo 1841-1842. Counterstamp consisting of a six-pointed star (new national coat of arms) and a hole made by removing a percentage of the silver to pay the mint for its efforts:

*C1) Above c/s over holed Guatemala 2 Reales 1773 C10.3. VG-F, RR . . 95.00
C2) Above c/s over Lima 2 Reales 1807 C10.3. F/VG, RR 90.00

II) -Stamp of female bust (perhaps Queen Victoria of England) and national Ceiba tree on all pre-Isabel II Spanish mainland 2 Pesetas. "Authorized by the government" in 1845 making them legal "2 Reales" coins. Craig #14.

C3) Over Madrid 2 Reales 1788 Carlos III. Coin is good, c/s is F-VF . . 25.00

C10) 1 Real 1846 JB C12 over Potosi cob. About Fine 20.00
C11) 1 Real 1846 JB C12 over Potosi cob. Bold EF, c/s is 85% struck. . 37.50
C12) 2 Reales 1846 JB C13 over holed cob. AVF, 100% struck 25.00
C13) 2 Reales 1846 JB C13 over Lima cob with much detail. Fine 40.00

C15) 2 Reales 1846 JB C13 over cob "2" reales. Nice VF 40.00

IV) -Lion in 5 millimeter circle punched over federation coinage of the Costa Rica mint. Intended to discourage counterfeiting of the base coins. Ironically the c/s itself is now suspected of having been used recently on various foreign issues of the 1840-1890 era. Since the c/s was last applied officially about 1857, many can be readily declared bogus. Presently, Holland Wallace is working to determine which dies were used originally in order to correctly classify all extant examples.

GUATEMALA All counterstamping done by Guatemala was done on crown size coins with the exception of a few minors with the sun and mountains c/s.

SALVADOR Present research indicates that five different counterstamps were applied by Salvador during its history. Please refer to our list #5 of June 1973 for the most complete research yet published on these issues.

I) -Counterstamp of a triangular mountain with "1839" below in a small rectangle. Exists over 1/2, 1, 2 and possibly 8 Reales coins; all are RR.
C51) Above counterstamp over a worn and pierced Chile 1/2 Real 1833-34. Ex-Jacques Schulman (1911). Probably UNIQUE over a 1/2 Real . . . . -

*475 -2 Reales 1892 no star Y62. VF, attractive. A mule of the 1881 obverse dies for the 2 Reales and the very scarce 1892 no star 25 Centavos. Considering the rarity of the 25 Centavos with no star between fineness and date, it is doubtful that more than one such error reverse die existed. Thus the chances of this mule occurring (with the eleven year-old obverse die), even in the chaotic Guatemala mint of the 1890s, was small. We have never

WE HOPE THAT THE PRECEDING SELECTION OF MINOR COINS of Central and South America, Mexico and the Caribbean will offer at least a few items of interest to each and every collector of Latin American coinage.

We have become one of the top five buyers of general Latin American coinage in the USA. Among dealers in minor coinage of Central and South America, we are unquestionably the leading authorities and buyers in this country. Our normal purchases from collectors average only $2500 per transaction but we are prepared to obtain any worthwhile group up to $200,000 for immediate payment. We are particularly interested in examining and/or purchasing all collections of Central American coinage. We are always in the market to buy worthwhile items. If you have coins for sale, it will pay you to contact us!

TERMS OF SALE: Coins are available on approval only to those who have previously established an account with us and who have a good payment record. Others are kindly requested to pay on invoice and thereby begin establishing an account. New customers should provide references and allow a few days for checks to clear our bank.
